

Author's Accepted Manuscript

Biodiesel fuel production from waste cooking oil using radiation-grafted fibrous catalysts

Yuji Ueki, Seiichi Saiki, Hiroyuki Hoshina, Noriaki Seko

PII: S0969-806X(17)30265-7
DOI: <http://dx.doi.org/10.1016/j.radphyschem.2017.09.010>
Reference: RPC7643

To appear in: *Radiation Physics and Chemistry*

Received date: 28 February 2017
Revised date: 21 July 2017
Accepted date: 11 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Biodiesel fuel production from waste cooking oil using radiation-grafted fibrous catalysts
