Title: Connecting chaperone-mediated autophagy dysfunction to cellular senescence

Authors: Daniel Moreno-Blas, Elisa Gorostieta-Salas, Susana Castro-Obregón

Please cite this article as: Moreno-Blas, Daniel, Gorostieta-Salas, Elisa, Castro-Obregón, Susana, Connecting chaperone-mediated autophagy dysfunction to cellular senescence. Ageing Research Reviews https://doi.org/10.1016/j.arr.2017.11.001

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
