Title

The effects of plantar perception training on balance and falls efficacy of the elderly with a history of falls: A single-blind, randomized controlled trial

Author

Name: Jin-Hyuck Park

Academic degree: Master of Public Health

Affiliation

Department of Occupational Therapy, Kyungbok University, Pochen, Republic of Korea

Correspondence

Name: Jin-Hyuck Park

Address: 154, Sinpyeong-ro, Sinbuk-myeon, Pocheon-si, Gyeonggi-do, Republic of Korea

Zip code: 11138

E-mail: roophy@naver.com

Tel: 82-70-5055-0881

FAX: 82-70-4324-2353

Highlights

- We study the effect of plantar perception training in elderly people.
- Balance and falls efficacy improved significantly in both groups.
- Plantar perception training might be useful to improve balance and falls efficacy.
