Title: Brain hyperintensity location determines outcome in the triad of impaired cognition, physical health and depressive symptoms: A cohort study in late life

Author: Alison Murray Chris McNeil Sima Salarirad Ian Deary Louise Phillips Lawrence Whalley Roger Staff

PII: S0167-4943(15)30068-6
DOI: <http://dx.doi.org/doi:10.1016/j.archger.2015.10.004>
Reference: AGG 3233

To appear in: *Archives of Gerontology and Geriatrics*

Received date: 21-11-2014
Revised date: 30-7-2015
Accepted date: 14-10-2015

Please cite this article as: Murray, Alison, McNeil, Chris, Salarirad, Sima, Deary, Ian, Phillips, Louise, Whalley, Lawrence, Staff, Roger, Brain hyperintensity location determines outcome in the triad of impaired cognition, physical health and depressive symptoms: A cohort study in late life. *Archives of Gerontology and Geriatrics* <http://dx.doi.org/10.1016/j.archger.2015.10.004>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Brain hyperintensity location determines outcome in the triad of impaired cognition, physical health and depressive symptoms: A cohort study in late life
