This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

On the role of IgG4 in inflammatory conditions: lessons for IgG4-related disease

David C. Trampert*, Lowiek M. Hubers*, Stan F.J. van de Graaf, Ulrich Beuers

*contributed equally

Department of Gastroenterology & Hepatology and Tytgat Institute for Liver and Intestinal Research,
Academic Medical Centre, University of Amsterdam, Amsterdam, The Netherlands

Key words : autoimmune pancreatitis, cholangiocarcinoma, IgG4-associated cholangitis,
melanoma, primary sclerosing cholangitis, review

Address for correspondence:
