Maternal insulin therapy does not restore foetoplacental endothelial dysfunction in gestational diabetes mellitus

Mario Subiabre, Luis Silva, Roberto Villalobos-Labra, Fernando Toledo, Mario Paublo, Marcia A. López, Rocío Salsoso, Fabián Pardo, Andrea Leiva, Luis Sobrevia

PII: S0925-4439(17)30254-5
DOI: doi:[10.1016/j.bbadis.2017.07.022](https://doi.org/10.1016/j.bbadis.2017.07.022)
Reference: BBADIS 64834

To appear in: *BBA - Molecular Basis of Disease*

Received date: 21 April 2017
Revised date: 29 June 2017
Accepted date: 24 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
