Microbial Recognition and Danger Signals in Sepsis and Trauma

Steven L. Raymond, David C. Holden, Juan C. Mira, Julie A. Stortz, Tyler J. Loftus, Alicia M. Mohr, Lyle L. Moldawer, Frederick A. Moore, Shawn D. Larson, Philip A. Efron

PII: S0925-4439(17)30026-1
DOI: doi:[10.1016/j.bbadis.2017.01.013](https://doi.org/10.1016/j.bbadis.2017.01.013)
Reference: BBADIS 64664

To appear in: *BBA - Molecular Basis of Disease*

Received date: 21 November 2016
Revised date: 3 January 2017
Accepted date: 16 January 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Microbial Recognition and Danger Signals in Sepsis and Trauma

Steven L. Raymond, M.D., David C. Holden, B.S., Juan C. Mira, M.D., Julie A. Stortz, M.D., Tyler J. Loftus, M.D., Alicia M. Mohr, M.D., Lyle L. Moldawer, Ph.D., Frederick A. Moore, M.D., Shawn D. Larson, M.D., Philip A. Efron, M.D.

Department of Surgery, University of Florida College of Medicine, Gainesville, FL.

Acknowledgement: Supported in part by grants R01 GM-040586, R01 GM-104481, R01 GM-113945, R01 GM-097531, R01 GM-105893 and P50 GM-111152 awarded by the National Institute of General Medical Sciences (NIGMS), U.S.P.H.S. Drs. Mira, Stortz and Loftus were supported by a post-graduate training grant T32 GM-08721 in burns, trauma and perioperative injury by NIGMS.

Running Head: PAMPs and DAMPs in Sepsis and Trauma

Key Words: sepsis; trauma; inflammation; infection; PAMP; DAMP
