Physical activity and cardiovascular aging: Physiological and molecular insights

Djordje G. Jakovljevic

PII: S0531-5565(17)30100-6

DOI: doi: [10.1016/j.exger.2017.05.016](https://doi.org/10.1016/j.exger.2017.05.016)

Reference: EXG 10059

To appear in: *Experimental Gerontology*

Received date: 4 February 2017

Revised date: ###REVISEDDATE###

Accepted date: 21 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Cardiovascular Aging: Clinical Applications of Cellular and Molecular
Mechanisms**

**Physical activity and Cardiovascular Aging: Physiological and Molecular
Insights**

Djordje G Jakovljevic, PhD MSc BSc ACSM-CEP

Senior Research Fellow in Cardiovascular Physiology

MRC Centre for Aging and Vitality, Institute of Cellular Medicine

Faculty of Medical Sciences, Newcastle University

Newcastle upon Tyne, NE2 4HH, United Kingdom
