

Author's Accepted Manuscript

Hormetic response triggers multifaceted anti-oxidant strategies in immature king penguins (*Aptenodytes patagonicus*)

Benjamin Rey, Cyril Dégletagne, Jacques Bodennec, Pierre-Axel Monternier, Mathieu Mortz, Damien Roussel, Caroline Romestaing, Jean-Louis Rouanet, Jeremy Tornos, Claude Duchamp

PII: S0891-5849(16)30335-5
DOI: <http://dx.doi.org/10.1016/j.freeradbiomed.2016.07.015>
Reference: FRB12938

To appear in: *Free Radical Biology and Medicine*

Received date: 14 January 2016
Revised date: 10 June 2016
Accepted date: 18 July 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Hormetic response triggers multifaceted anti-oxidant strategies in immature king penguins (*Aptenodytes patagonicus*)
