Reactivity of selenium-containing compounds with myeloperoxidase-derived chlorinating oxidants: Second-order rate constants and implications for biological damage

Luke Carroll, David I. Pattison, Shanlin Fu, Carl H. Schiesser, Michael J. Davies, Clare L. Hawkins

www.elsevier.com/locate/freeradbiomed

PII: S0891-5849(15)00153-7
DOI: <http://dx.doi.org/10.1016/j.freeradbiomed.2015.03.029>
Reference: FRB12369

To appear in: *Free Radical Biology and Medicine*

Received date: 29 January 2015

Revised date: 13 March 2015

Accepted date: 17 March 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
