N-glycosylation-negative catalase: a useful tool for exploring the role of hydrogen peroxide in the endoplasmic reticulum

S. Lortz, S. Lenzen, I. Mehmeti

www.elsevier.com/locate/freerad-biomed

PII: S0891-5849(14)01402-6
DOI: <http://dx.doi.org/10.1016/j.freeradbiomed.2014.11.024>
Reference: FRB12246

To appear in: *Free Radical Biology and Medicine*

Received date: 30 July 2014
Revised date: 7 November 2014
Accepted date: 27 November 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**N-glycosylation-negative catalase: a useful tool for exploring the role of
hydrogen peroxide in the endoplasmic reticulum**
