This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Mutation of the cellular adhesion molecule NECL2 is associated with neuro-myelitis optica spectrum disorder

Authors: Yan Xu¹, Liang Li^{2,3}, Hai-tao Ren¹, Bin Yin^{2,3}, Jian-gang Yuan^{2,3}, Xiao-zhong Peng^{2,3}, Bo-qin Qiang^{2,3}, Li-ying Cui^{1,3}

Address:

¹Department of Neurology, Peking Union Medical College Hospital, Chinese Academy of Medical Sciences & Peking Union Medical College (CAMS & PUMC), Beijing, China.

²State Key Laboratory of Medical Molecular Biology, Institute of Basic Medical Sciences, CAMS & PUMC, Beijing, China

³Neuroscience Center, CAMS, Beijing, China.

Author contributions:

Drs Xu and Li contributed equally to the manuscript.
