

## Accepted Manuscript

Water-level sign: A vivid pictorial expression for a known neuroradiological phenomenon hitherto differently unclearly described

Josef G. Heckmann, Stefan Ernst, Dieter Woischneck

PII: S0022-510X(18)30012-1  
DOI: doi:[10.1016/j.jns.2018.01.009](https://doi.org/10.1016/j.jns.2018.01.009)  
Reference: JNS 15735  
To appear in: *Journal of the Neurological Sciences*  
Received date: 22 November 2017  
Revised date: 22 December 2017  
Accepted date: 9 January 2018

Please cite this article as: Josef G. Heckmann, Stefan Ernst, Dieter Woischneck , Water-level sign: A vivid pictorial expression for a known neuroradiological phenomenon hitherto differently unclearly described. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Jns*(2018), doi:[10.1016/j.jns.2018.01.009](https://doi.org/10.1016/j.jns.2018.01.009)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

***Letter to the Editor*****Water-level sign: A vivid pictorial expression for a known neuroradiological phenomenon hitherto differently unclearly described**
