Cerebrovascular reactivity after treatment of unruptured intracranial aneurysms - a transcranial Doppler sonography and acetazolamide study

Marianne Lundervik Bøthun, Øystein Ariansen Haaland, Nicola Logallo, Frode Svendsen, Lars Thomassen, Christian A. Helland

PII: S0022-510X(15)30090-3
DOI: doi: [10.1016/j.jns.2015.12.024](https://doi.org/10.1016/j.jns.2015.12.024)
Reference: JNS 14263

To appear in: *Journal of the Neurological Sciences*

Received date: 11 February 2015
Revised date: 11 December 2015
Accepted date: 14 December 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Cerebrovascular reactivity after treatment of unruptured intracranial aneurysms - A transcranial Doppler sonography and acetazolamide study
