Suresh Kumar, Probing the role of proline –135 on the structure, stability, and cell proliferation activity of human acidic fibroblast growth factor, *Archives of Biochemistry and Biophysics* (2018), doi: 10.1016/j.abb.2018.07.017.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Probing the role of Proline -135 on the structure, stability, and cell proliferation activity of Human Acidic Fibroblast Growth Factor.
