

# Accepted Manuscript

Cyanidin-3-O-glucoside functions like chemical chaperone and attenuates the glycation mediated amyloid formation in albumin

Govindarajan Prasanna, Pu Jing

PII: S0003-9861(17)30793-2

DOI: [10.1016/j.abb.2018.02.012](https://doi.org/10.1016/j.abb.2018.02.012)

Reference: YABBI 7653

To appear in: *Archives of Biochemistry and Biophysics*

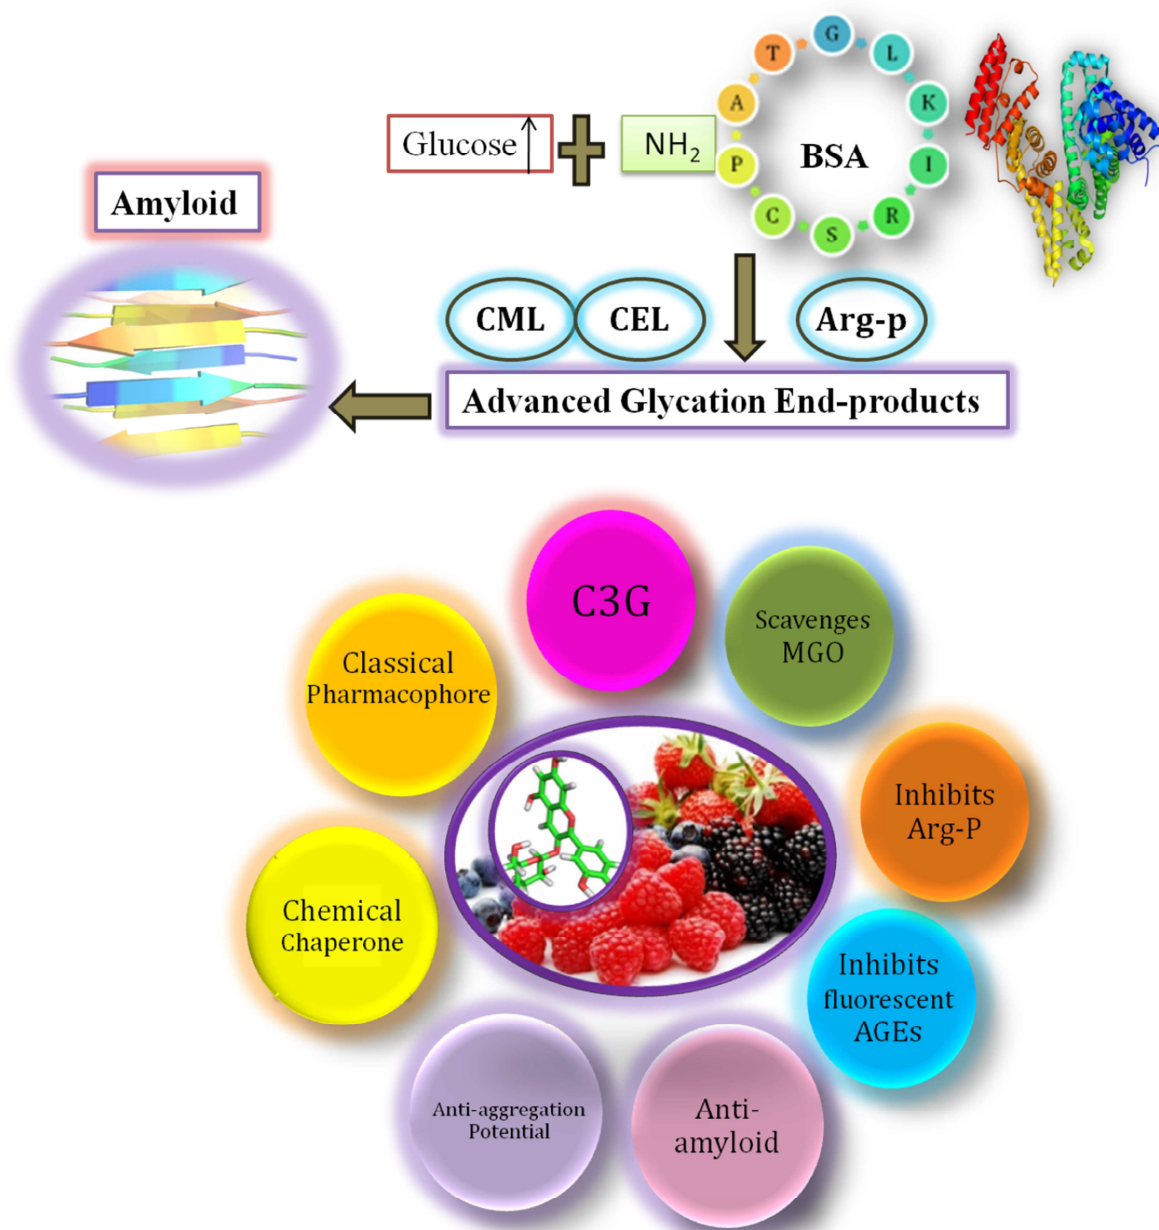

Received Date: 23 November 2017

Revised Date: 29 January 2018

Accepted Date: 19 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical abstract: C3G, chemical chaperone activity
