Whole length myosin binding protein C stabilizes myosin S2 as measured by gravitational force spectroscopy

Rohit R. Singh, James W. Dunn, Motamed M. Qadan, Nakiuda Hall, Kathy K. Wang, Douglas D. Root

PII: S0003-9861(17)30646-X

DOI: [10.1016/j.abb.2017.12.002](https://doi.org/10.1016/j.abb.2017.12.002)

Reference: YABBI 7603

To appear in: *Archives of Biochemistry and Biophysics*

Received Date: 18 September 2017

Revised Date: 30 November 2017

Accepted Date: 1 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Whole length myosin binding protein C stabilizes myosin S2 as measured by gravitational force spectroscopy.
