Improvement of formability and mechanical properties of magnesium alloys via pre-twinning: a review

Bo Song, Ning Guo, Tingting Liu, QingShan Yang

PII: S0261-3069(14)00403-8

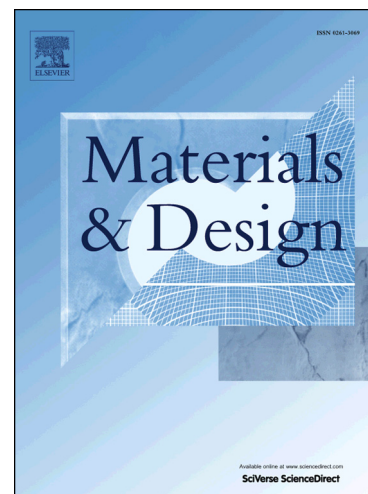

DOI: <http://dx.doi.org/10.1016/j.matdes.2014.05.034>

Reference: JMAD 6512

To appear in: *Materials and Design*

Received Date: 31 January 2014

Accepted Date: 7 May 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Improvement of formability and mechanical properties of magnesium alloys via pre-twinning: a review
