Xanthomonas TAL effectors hijack host basal transcription factor IIA α and γ subunits for invasion

Ling Ma, Qiang Wang, Meng Yuan, Tingting Zou, Ping Yin, Shiping Wang

PII: S0006-291X(18)30065-2

DOI: [10.1016/j.bbrc.2018.01.059](https://doi.org/10.1016/j.bbrc.2018.01.059)

Reference: YBBRC 39232

To appear in: *Biochemical and Biophysical Research Communications*

Received Date: 4 January 2018

Accepted Date: 9 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

***Xanthomonas* TAL effectors hijack host basal transcription factor IIA α and γ subunits for invasion**
