Pyruvate dehydrogenase kinase 4 mediates lipogenesis and contributes to the pathogenesis of nonalcoholic steatohepatitis

Ming Zhang, Yujie Zhao, Zhen Li, Congying Wang

PII: S0006-291X(17)32232-5

DOI: [10.1016/j.bbrc.2017.11.054](https://doi.org/10.1016/j.bbrc.2017.11.054)

Reference: YBBRC 38847

To appear in: *Biochemical and Biophysical Research Communications*

Received Date: 5 November 2017

Accepted Date: 8 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**pyruvate dehydrogenase kinase 4 mediates lipogenesis and
contributes to the pathogenesis of Nonalcoholic
Steatohepatitis**
