

## Accepted Manuscript

Changing the site energy of per-614 in the Peridinin-chlorophyll a-protein does not alter its capability of chlorophyll triplet quenching

Alessandro Agostini, Jens Niklas, Tim Schulte, Marilena Di Valentin, Marco Bortolus, Eckhard Hofmann, Wolfgang Lubitz, Donatella Carbonera

PII: S0005-2728(18)30123-3  
DOI: doi:[10.1016/j.bbabi.2018.05.008](https://doi.org/10.1016/j.bbabi.2018.05.008)  
Reference: BBABIO 47920

To appear in:

Received date: 7 April 2018  
Accepted date: 15 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Changing the site energy of Per-614 in the Peridinin-Chlorophyll *a*-Protein does not alter its capability of Chlorophyll triplet quenching
