Role of the cell membrane interface in modulating production and uptake of Alzheimer's beta amyloid protein

Prashant Bharadwaj, Tanya Solomon, Chris J. Malajczuk, Ricardo L. Mancera, Mark Howard, Damien W.M. Arrigan, Philip Newsholme, Ralph Martins

PII: S0005-2736(18)30095-6
DOI: doi:[10.1016/j.bbamem.2018.03.015](https://doi.org/10.1016/j.bbamem.2018.03.015)
Reference: BBAMEM 82740

To appear in:

Received date: 4 January 2018
Revised date: 13 March 2018
Accepted date: 14 March 2018

Please cite this article as: Prashant Bharadwaj, Tanya Solomon, Chris J. Malajczuk, Ricardo L. Mancera, Mark Howard, Damien W.M. Arrigan, Philip Newsholme, Ralph Martins , Role of the cell membrane interface in modulating production and uptake of Alzheimer's beta amyloid protein. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Role of the cell membrane interface in modulating production and uptake of Alzheimer's beta amyloid protein
