

## Accepted Manuscript

Sine wave electroporation reveals the frequency-dependent response of the biological membranes

Tomás García-Sánchez, Caterina Merla, Jessica Fontaine, Adeline Muscat, Lluís M. Mir

PII: S0005-2736(18)30024-5  
DOI: <https://doi.org/10.1016/j.bbamem.2018.01.018>  
Reference: BBAMEM 82688

To appear in:

Received date: 4 October 2017  
Revised date: 16 January 2018  
Accepted date: 22 January 2018

Please cite this article as: Tomás García-Sánchez, Caterina Merla, Jessica Fontaine, Adeline Muscat, Lluís M. Mir, Sine wave electroporation reveals the frequency-dependent response of the biological membranes. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Bbamem(2018), <https://doi.org/10.1016/j.bbamem.2018.01.018>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
