

## Accepted Manuscript

Polarized light microscopy reveals physiological and drug-induced changes in surfactant membrane assembly in alveolar type II pneumocytes

Thomas Haller, Alejandro Cerrada, Kristian Pfaller, Peter Braubach, Edward Felder

PII: S0005-2736(18)30010-5

DOI: <https://doi.org/10.1016/j.bbamem.2018.01.010>

Reference: BBAMEM 82680

To appear in:

Received date: 11 August 2017

Revised date: 5 December 2017

Accepted date: 4 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Polarized light microscopy reveals physiological and drug-induced changes in surfactant membrane assembly in alveolar type II pneumocytes
