CaMKK2 kinase domain interacts with the autoinhibitory region through the N-terminal lobe including the RP insert

Salome Kylarova, Katarina Psenakova, Petr Herman, Veronika Obsilova, Tomas Obsil

PII: S0304-4165(18)30219-8
DOI: doi:[10.1016/j.bbagen.2018.07.025](https://doi.org/10.1016/j.bbagen.2018.07.025)
Reference: BBAGEN 29174
To appear in: *BBA - General Subjects*
Received date: 14 May 2018
Revised date: 18 July 2018
Accepted date: 22 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

CaMKK2 kinase domain interacts with the autoinhibitory region through the N-terminal lobe including the RP insert
