Amphipathic helical peptides hamper protein-protein interactions of the intrinsically disordered chromatin nuclear protein 1 (NUPR1)

Patricia Santofimia-Castaño, Bruno Rizzuti, Olga Abián, Adrián Velázquez-Campoy, Juan L. Iovanna, José L. Neira

PII: S0304-4165(18)30071-0
DOI: doi:[10.1016/j.bbagen.2018.03.009](https://doi.org/10.1016/j.bbagen.2018.03.009)
Reference: BBAGEN 29060

To appear in:

Received date: 5 December 2017
Revised date: 4 March 2018
Accepted date: 8 March 2018

Please cite this article as: Patricia Santofimia-Castaño, Bruno Rizzuti, Olga Abián, Adrián Velázquez-Campoy, Juan L. Iovanna, José L. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
