The O- β -linked N-acetylglucosaminylation of the Lamin B receptor and its impact on DNA binding and phosphorylation

Caroline Smet-Nocca, Adeline Page, François-Xavier Cantrelle, Eleni Nikolakaki, Isabelle Landrieu, Thomas Giannakouros

PII: S0304-4165(18)30012-6
DOI: <https://doi.org/10.1016/j.bbagen.2018.01.007>
Reference: BBAGEN 29022

To appear in:

Received date: 28 July 2017
Revised date: 24 December 2017
Accepted date: 10 January 2018

Please cite this article as: Caroline Smet-Nocca, Adeline Page, François-Xavier Cantrelle, Eleni Nikolakaki, Isabelle Landrieu, Thomas Giannakouros , The O- β -linked N-acetylglucosaminylation of the Lamin B receptor and its impact on DNA binding and phosphorylation. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Bbagen(2018), <https://doi.org/10.1016/j.bbagen.2018.01.007>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The O- β -linked N-acetylglucosaminylation of the Lamin B Receptor and its impact on DNA binding and phosphorylation.
