

## Accepted Manuscript

Profiling of phosphoinositide molecular species in human and mouse platelets identifies new species increasing following stimulation

Abdulrahman Mujalli, Gaëtan Chicanne, Justine Bertrand-Michel, Fanny Viars, Len Stephens, Phil Hawkins, Julien Viaud, Frédérique Gaits-Iacovoni, Sonia Severin, Marie-Pierre Gratacap, Anne-Dominique Terrisse, Bernard Payrastre

PII: S1388-1981(18)30132-X  
DOI: doi:[10.1016/j.bbalip.2018.06.009](https://doi.org/10.1016/j.bbalip.2018.06.009)  
Reference: BBAMCB 58314

To appear in: *BBA - Molecular and Cell Biology of Lipids*

Received date: 20 February 2018  
Revised date: 15 May 2018  
Accepted date: 10 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Profiling of phosphoinositide molecular species in human and mouse platelets identifies new species increasing following stimulation.**

**Short title for running head**

Profiling of phosphoinositide molecular species in platelets
