

## Accepted Manuscript

Oleoyl-Lysophosphatidylinositol enhances glucagon-like Peptide-1 secretion from Enteroendocrine L-cells through GPR119

Syamsul A. Arifin, Silvano Paternoster, Rodrigo Carlessi, Iliaria Casari, Jeppe Hvidtfeldt Ekberg, Tania Maffucci, Philip Newsholme, Mette M. Rosenkilde, Marco Falasca

PII: S1388-1981(18)30128-8  
DOI: doi:[10.1016/j.bbalip.2018.06.007](https://doi.org/10.1016/j.bbalip.2018.06.007)  
Reference: BBAMCB 58312  
To appear in: *BBA - Molecular and Cell Biology of Lipids*  
Received date: 9 November 2017  
Revised date: 24 April 2018  
Accepted date: 2 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
