This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Identification of a gene encoding a flavoprotein involved in bile acid metabolism
by the human gut bacterium *Clostridium scindens* ATCC 35704**

Key words: Bile acids, *Clostridium*, flavoprotein, 7 α -dehydroxylation

Abbreviations:

CA - cholic acid; CDCA - chenodeoxycholic acid; BSH - bile salt hydrolase; BA7 - bile acid 7 α -dehydroxylation; DCA - deoxycholic acid; LCA - lithocholic acid; bai - bile acid-induced operon; BHI - brain heart infusion; IPTG - Isopropyl β -D-1-thiogalactopyranoside; LB - lysogeny broth; SDS-PAGE - sodium dodecyl sulfate-
