Specific oxygenation of plasma membrane phospholipids by *Pseudomonas aeruginosa* lipoxygenase induces structural and functional alterations in mammalian cells

Maceler Aldrovandi, Swathi Banthiya, Sven Meckelmann, You Zhou, Dagmar Heydeck, Valerie B. O'Donnell, Hartmut Kuhn

PII: S1388-1981(17)30229-9
DOI: doi:[10.1016/j.bbalip.2017.11.005](https://doi.org/10.1016/j.bbalip.2017.11.005)
Reference: BBAMCB 58219

To appear in:

Received date: 16 August 2017
Revised date: 20 October 2017
Accepted date: 11 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Specific oxygenation of plasma membrane phospholipids by *Pseudomonas aeruginosa* lipoxygenase induces structural and functional alterations in mammalian cells.
