Regulation of Autophagy and Mitophagy by Nutrient Availability and Acetylation

Bradley R. Webster, Iain Scott, Javier Traba, Kim Han, Michael N. Sack

PII: S1388-1981(14)00028-6
DOI: doi: [10.1016/j.bbalip.2014.02.001](https://doi.org/10.1016/j.bbalip.2014.02.001)
Reference: BBAMCB 57585

To appear in: *BBA - Molecular and Cell Biology of Lipids*

Received date: 6 September 2013
Revised date: 10 January 2014
Accepted date: 4 February 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Regulation of Autophagy and Mitophagy by Nutrient Availability and Acetylation
