This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title:

AUF1 modulates TGF- β signal in renal tubular epithelial cells via post-transcriptional regulation of Nedd4L expression

Authors:

Jing Yan^{1,2#}, Feng Du^{3#}, Sheng-Dong Li¹, Ye Yuan², Jing-Yi Jiang², Si Li², Xin-Yu Li²,
Zhen-Xian Du¹

Affiliations:

¹ Department of Endocrinology & Metabolism, the 1st affiliated Hospital, China Medical University, Shenyang 110001, China

² Department of Biochemistry & Molecular Biology, China Medical University, Shenyang 110026, China

³ Department of Nephrology, Sheng Jing Hospital, China Medical University, Shenyang 110005, China

These authors contributed equally.

Short title:

AUF1 interacts with and destabilizes Nedd4L transcript

Keywords:

AUF1; Nedd4L; TGF- β ; renal tubular epithelial cells

Conflict of interest

The authors declare no conflict of interest.
