

## Accepted Manuscript

FGF 23, PTH and vitamin D status in end stage renal disease patients affected by VDR FokI and BsmI variants

Mouna Bouksila, Wajih Kaabachi, Mehdi Mrad, Wided Smaoui, Elhem Cheour El Kateb, Mohammed Karim Zouaghi, Kamel Hamzaoui, Afef Bahlous

PII: S0009-9120(17)31160-8  
DOI: doi:[10.1016/j.clinbiochem.2018.02.009](https://doi.org/10.1016/j.clinbiochem.2018.02.009)  
Reference: CLB 9717  
To appear in: *Clinical Biochemistry*  
Received date: 22 November 2017  
Revised date: 13 February 2018  
Accepted date: 15 February 2018

Please cite this article as: Mouna Bouksila, Wajih Kaabachi, Mehdi Mrad, Wided Smaoui, Elhem Cheour El Kateb, Mohammed Karim Zouaghi, Kamel Hamzaoui, Afef Bahlous, FGF 23, PTH and vitamin D status in end stage renal disease patients affected by VDR FokI and BsmI variants. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Clb*(2018), doi:[10.1016/j.clinbiochem.2018.02.009](https://doi.org/10.1016/j.clinbiochem.2018.02.009)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title: FGF 23, PTH and Vitamin D status in end stage renal disease patients affected by VDR FokI and BsmI variants**
