Reflex and reflective testing strategies for early detection of pituitary dysfunction

Manal Elnenaei, Derek Minney, David B. Clarke, Andrew Kumar-Misir, Syed Ali Imran

PII: S0009-9120(17)31228-6
DOI: doi:[10.1016/j.clinbiochem.2018.02.014](https://doi.org/10.1016/j.clinbiochem.2018.02.014)
Reference: CLB 9722

To appear in: *Clinical Biochemistry*

Received date: 12 December 2017
Revised date: 20 February 2018
Accepted date: 24 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Reflex and Reflective Testing Strategies for Early Detection of Pituitary

Dysfunction
