Method performance and clinical workflow outcomes associated with meconium and umbilical cord toxicology testing

Ruth M. Labardee, Jaime R. Swartzwelder, Karen E. Gebhardt, Justine A. Pardi, Anna C. Dawsey, R. Brent Dixon, Steven W. Cotten

PII: S0009-9120(17)30574-X
DOI: doi:[10.1016/j.clinbiochem.2017.09.016](https://doi.org/10.1016/j.clinbiochem.2017.09.016)
Reference: CLB 9624
To appear in: *Clinical Biochemistry*
Received date: 13 June 2017
Revised date: 12 September 2017
Accepted date: 19 September 2017

Please cite this article as: Ruth M. Labardee, Jaime R. Swartzwelder, Karen E. Gebhardt, Justine A. Pardi, Anna C. Dawsey, R. Brent Dixon, Steven W. Cotten , Method performance and clinical workflow outcomes associated with meconium and umbilical cord toxicology testing. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Method Performance and Clinical Workflow Outcomes Associated with
Meconium and Umbilical Cord Toxicology Testing
