This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Review**

**Title:** Systematic Review of Serum Steroid Reference Intervals developed using Mass Spectrometry

**Running title:** Steroid Hormone Reference Intervals for Mass Spectrometry

**Authors:**

Nevada Tavita<sup>1</sup>, BBiomedSci (Hons)

Ronda F Greaves<sup>1,2</sup>, BSc, MAACB, PhD, FFSc (RCPA)

<sup>1</sup>School of Health & Biomedical Sciences, RMIT University, Victoria, Australia

<sup>2</sup>Murdoch Children's Research Institute, Melbourne, Australia.

**Correspondence:**

Dr Ronda Greaves

School of Health and Biomedical Sciences, RMIT University,

**Funding:** There was no specific grant for this work.

**Financial Disclosure:** The authors have no financial relationships relevant to this article to disclose.

**Conflict of Interest:** Nothing to declare

**Contributors Statement:** There is no conflict of interest that could be perceived as prejudicing the impartiality of this manuscript. The manuscript consists of original material and has not been published elsewhere. All authors listed contributed to this work. Mr Tavita conducted the systematic review under guidance from Dr Greaves as part of his PhD candidature. Mr Tavita and Dr Greaves wrote the first draft of this manuscript and both authors reviewed, edited and approved the final manuscript. All the authors have accepted responsibility for the entire content of this submitted

**Key Words:** *Reference intervals, mass spectrometry, steroids, harmonization*

**Word count:** 4222

**References:** 47
