This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title

The hatching process and mechanisms of adaptive hatching acceleration in hourglass treefrogs, *Dendropsophus ebraccatus*

Authors

Kristina L. Cohen^{1*}, Michael L. Piacentino^{1,2}, Karen M. Warkentin^{1,3}

¹Department of Biology and ²Program in Molecular Biology, Cell Biology and Biochemistry, Boston University, 5 Cummington Mall, Boston, MA, 02215, USA

³Smithsonian Tropical Research Institute, Apartado Postal 0843-03092, Panamá, República de Panamá

*Author for correspondence (kcohen@bu.edu)

Contact info for corresponding author: Kristina L. Cohen, Department of Biology, 5 Cummington Mall, Boston, MA, 02215. Phone: (518) 369-7008 email: kcohen@bu.edu

Running title: Hatching process and regulation in a frog

ms. has 43 pages, 10 figures 1 table and one supplementary table
