

# Accepted Manuscript

Hypoxia induces selective modifications to the acetylome in the brain of zebrafish (*Danio rerio*)

Rashpal S. Dhillon, Jeffrey G. Richards

PII: S1096-4959(17)30214-2

DOI: <https://doi.org/10.1016/j.cbpb.2017.12.018>

Reference: CBB 10171

To appear in:

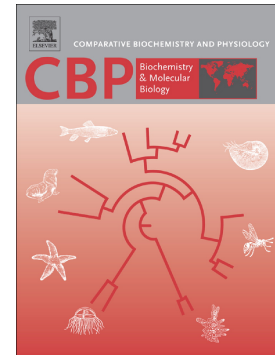

Received date: 12 September 2017

Revised date: 18 December 2017

Accepted date: 20 December 2017

Please cite this article as: Rashpal S. Dhillon, Jeffrey G. Richards , Hypoxia induces selective modifications to the acetylome in the brain of zebrafish (*Danio rerio*). The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Cbb(2018), <https://doi.org/10.1016/j.cbpb.2017.12.018>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Hypoxia induces selective modifications to the acetylome in the brain of zebrafish (*Danio rerio*)
