***In vitro* and *in silico* evaluation of transactivation potencies of avian AHR1 and AHR2 by endogenous ligands: implications for the physiological role of avian AHR2**

In-Sung Kim, Ji-HeeHwang, Masashi Hirano, HisatoIwata, Eun-Young Kim

PII: S1532-0456(16)30045-X
DOI: doi: [10.1016/j.cbpc.2016.03.011](https://doi.org/10.1016/j.cbpc.2016.03.011)
Reference: CBC 8207

To appear in: *Comparative Biochemistry and Physiology Part C*

Received date: 6 November 2015
Revised date: 5 February 2016
Accepted date: 29 March 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

***In vitro* and *in silico* evaluation of transactivation potencies of avian AHR1 and AHR2 by endogenous ligands: implications for the physiological role of avian AHR2**

Running title:

Transactivation potency of avian AHRs by tryptophan metabolites

This manuscript has 33 pages, 2 figures, 3 tables, 5 Supplementary figures, 1 Supplementary table
