Title: MicroRNA-17 inhibition overcomes chemoresistance and suppresses epithelial-mesenchymal transition through a DEDD-dependent mechanism in gastric cancer

Authors: Dong-Mei Wu, Xiao-Wu Hong, Ling-Ling Wang, Xia-Feng Cui, Jun Lu, Gui-Quan Chen, Yuan-Lin Zheng

PII: S1357-2725(18)30149-3
DOI: <https://doi.org/10.1016/j.biocel.2018.06.007>
Reference: BC 5380

To appear in: *The International Journal of Biochemistry & Cell Biology*

Received date: 11-3-2018
Revised date: 20-6-2018
Accepted date: 25-6-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

MicroRNA-17 inhibition overcomes chemoresistance and suppresses epithelial-mesenchymal transition through a DEDD-dependent mechanism in gastric cancer

Running title: MiR-17 inhibition blocks EMT in GC
