Role of modification route for zinc oxide nanoparticles on protein structure and their effects on glioblastoma cells

Mine Altunbek, Seda Keleştemur, Gülin Baran, Mustafa Çulha

PII: S0141-8130(18)32331-6

DOI: doi:[10.1016/j.ijbiomac.2018.06.059](https://doi.org/10.1016/j.ijbiomac.2018.06.059)

Reference: BIOMAC 9899

To appear in: *International Journal of Biological Macromolecules*

Received date: 14 May 2018

Revised date: 30 May 2018

Accepted date: 12 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Role of Modification Route for Zinc Oxide Nanoparticles on Protein Structure and
Their Effects on Glioblastoma Cells**
