Physico-chemical characterization and beneficial effects of seaweed sulfated polysaccharide against oxydatif and cellular damages caused by alloxan in diabetic rats

Rihab Ben Abdallah Kolsi, Jawhar Fakhfakh, Sameh Sassi, Mouna Elleuch, Lamia Gargouri

PII: S0141-8130(18)30540-3
DOI: doi:[10.1016/j.ijbiomac.2018.03.127](https://doi.org/10.1016/j.ijbiomac.2018.03.127)
Reference: BIOMAC 9349

To appear in:

Received date: 31 January 2018
Revised date: 14 February 2018
Accepted date: 21 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Physico-chemical characterization and beneficial effects of seaweed sulfated polysaccharide against oxydatif and cellular damages caused by alloxan in diabetic rats
