

## Accepted Manuscript

Synthesis of zeolite/nickel ferrite/sodium alginate bionanocomposite via a co-precipitation technique for efficient removal of water-soluble methylene blue dye

Mahsa Bayat, Vahid Javanbakht, Javad Esmaili

PII: S0141-8130(18)30736-0  
DOI: doi:[10.1016/j.ijbiomac.2018.05.012](https://doi.org/10.1016/j.ijbiomac.2018.05.012)  
Reference: BIOMAC 9613

To appear in:

Received date: 13 February 2018  
Revised date: 30 April 2018  
Accepted date: 2 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Synthesis of zeolite/nickel ferrite/sodium alginate bionanocomposite via a co-precipitation technique for efficient removal of water-soluble methylene blue dye**
