

## Accepted Manuscript

Poly(3-hydroxybutyrate)/polyethylene glycol-NiO  
nanocomposite for NOR delivery: Antibacterial activity and  
cytotoxic effect against cancer cell lines

Mohamed Abdelwahab, Nehal Salahuddin, Mohamed Gaber,  
Maie Mousa

PII: S0141-8130(17)33907-7  
DOI: doi:[10.1016/j.ijbiomac.2018.03.050](https://doi.org/10.1016/j.ijbiomac.2018.03.050)  
Reference: BIOMAC 9272

To appear in:

Received date: 9 October 2017  
Revised date: 7 March 2018  
Accepted date: 12 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Poly(3-hydroxybutyrate)/Polyethylene glycol-NiO nanocomposite for NOR  
delivery: Antibacterial activity and cytotoxic effect against cancer cell lines**

Mohamed Abdelwahab, Nehal Salahuddin\*, Mohamed Gaber, Maie Mousa
