New insight into the allosteric effect of L-tyrosine on mushroom tyrosinase during L-dopa production

Sorour Hassani, Behzad Gharechaei, Somayeh Nikfard, Mostafa Fazli, Nematollah Gheibi, Renaud Hardré, Raymond L. Legge, Kamahldin Haghbeen

PII: S0141-8130(18)30754-2
DOI: doi:[10.1016/j.ijbiomac.2018.03.185](https://doi.org/10.1016/j.ijbiomac.2018.03.185)
Reference: BIOMAC 9407

To appear in:

Received date: 14 February 2018
Revised date: 30 March 2018
Accepted date: 31 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

New insight into the allosteric effect of L-tyrosine on mushroom tyrosinase during L-dopa production
