Title: Fully Biodegradable Poly(lactic acid)/Starch Blends: A Review of Toughening Strategies

Authors: J.Justin Koh, Xiwen Zhang, Chaobin He

PII: S0141-8130(17)34302-7
DOI: <https://doi.org/10.1016/j.ijbiomac.2017.12.048>
Reference: BIOMAC 8709

To appear in: *International Journal of Biological Macromolecules*

Received date: 1-11-2017
Revised date: 27-11-2017
Accepted date: 7-12-2017

Please cite this article as: J.Justin Koh, Xiwen Zhang, Chaobin He, Fully Biodegradable Poly(lactic acid)/Starch Blends: A Review of Toughening Strategies, International Journal of Biological Macromolecules <https://doi.org/10.1016/j.ijbiomac.2017.12.048>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Fully Biodegradable Poly(lactic acid)/Starch Blends: A Review of Toughening Strategies
