Title: Recombinant-phospholipase A2 production and architecture of inclusion bodies are affected by pH in *Escherichia coli*

Authors: Carlos Calcines-Cruz, Alejandro Olvera, Ricardo M. Castro-Acosta, Guadalupe Zavala, Alejandro Alagón, Mauricio A. Trujillo-Roldán, Norma A. Valdez-Cruz

PII: S0141-8130(17)33589-4
DOI: <https://doi.org/10.1016/j.ijbiomac.2017.10.178>
Reference: BIOMAC 8473

To appear in: *International Journal of Biological Macromolecules*

Received date: 17-9-2017
Revised date: 30-10-2017
Accepted date: 30-10-2017

Valdez-Cruz, Recombinant-phospholipase A2 production and architecture of inclusion bodies are affected by pH in *Escherichia coli*, International Journal of Biological Macromolecules <https://doi.org/10.1016/j.ijbiomac.2017.10.178>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Recombinant-phospholipase A2 production and architecture of inclusion bodies are affected by pH in *Escherichia coli*
