Title: Increased levels of circulating (TNF- α) is associated with (-308G/A) promoter polymorphism of *TNF- α* gene in Diabetic Nephropathy

Authors: Dhamodharan Umapathy, Krishnamoorthy Ezhilarasi, Vairamani Mariappanadar, Vijay Viswanathan, Ramkumar Kunka Mohanram

PII: S0141-8130(17)32591-6
DOI: <https://doi.org/10.1016/j.ijbiomac.2017.10.078>
Reference: BIOMAC 8373

To appear in: *International Journal of Biological Macromolecules*

Received date: 17-7-2017
Revised date: 6-10-2017
Accepted date: 13-10-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Increased levels of circulating (TNF- α) is associated with (-308G/A) promoter
polymorphism of *TNF- α* gene in Diabetic Nephropathy**

Running Title: *TNF- α* polymorphism and its circulating levels in diabetic nephropathy subjects
