Title: Low molecular weight fucoidan and its fractions inhibit renal epithelial mesenchymal transition induced by TGF- β 1 or FGF-2

Authors: Xinpeng Li, Xiaohong Li, Quanbin Zhang, Tingting Zhao

PII: S0141-8130(17)31136-4
DOI: <http://dx.doi.org/doi:10.1016/j.ijbiomac.2017.06.058>
Reference: BIOMAC 7738

To appear in: *International Journal of Biological Macromolecules*

Received date: 28-3-2017
Revised date: 24-5-2017
Accepted date: 11-6-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Low molecular weight fucoidan and its fractions inhibit renal epithelial
mesenchymal transition induced by TGF- β 1 or FGF-2**
